

**Newly revised!**

## **From the University of California**

This newly revised second edition manual for strawberry growers and pest control professionals uses the most up-to-date information from University of California faculty, Cooperative Extension specialists, and farm advisors. Illustrated with 224 color photographs and 56 line drawings and charts that will help you identify over 90 important pests and disorders. Includes chapters on production of strawberry transplants and managing pests in home garden strawberries.

### **Using this guide you'll learn how to:**

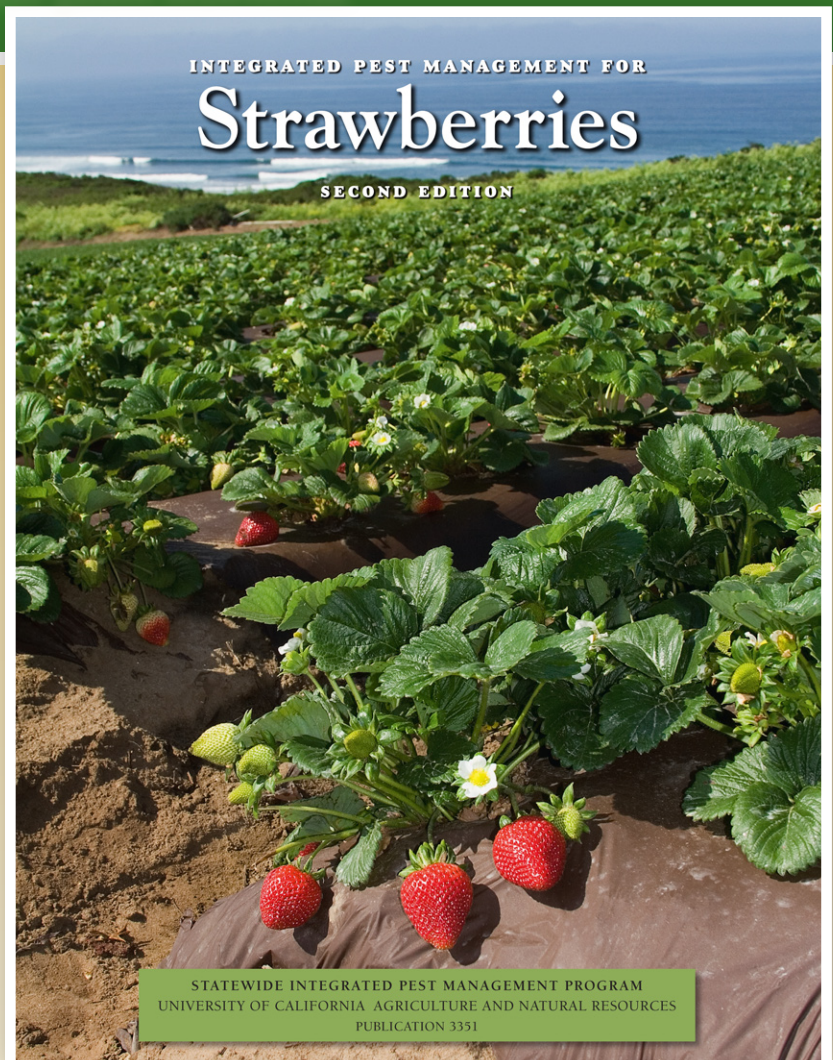

- Prevent and diagnose causes of damage
- Identify pests and key natural enemies
- Establish an IPM program for your fields
- Manage problems related to irrigation, nutrition, and the growing environment
- Determine when direct control actions are warranted

*Integrated Pest Management for Strawberries* is designed for use with the UC IPM Pest Management Guidelines: *Strawberry* available at <http://ucanr.org/strawberrypmg> and the new seasonal decision-making guide:

*Strawberry Year-Round IPM Program* available at [www.ipm.ucdavis.edu](http://www.ipm.ucdavis.edu)

**Publication 3351 \$30.00**

ISBN 13-978-1-60107-489-8

■ *Items that are new in this edition*

■ *Substantially revised from the first edition*

<b>Integrated Pest Management for Strawberries</b> .....	1
Strawberry Production in California .....	2
Strawberry Propagation .....	4
<b>Strawberry Growth and Development</b> .....	5
Growth Requirements .....	5
Development .....	6
Planting Systems .....	10
<b>Managing Pests in Strawberries</b> .....	11
Pest Identification .....	11
Field Monitoring .....	11
Keeping Records .....	15
Control Action Guidelines .....	15
Management Methods .....	15
Biological Control .....	15
Certified Planting Material .....	16
Cultivar Selection .....	16
Cultural Practices .....	16
Field Selection .....	16
Sanitation .....	16
Crop Rotation .....	17
Field Preparation .....	17
Soil Solarization .....	18
Planting .....	18
Plant Establishment .....	19
Pruning .....	20
Polyethylene Mulch .....	20
Irrigation .....	21
Salinity Management .....	24
Frost Protection .....	26
Fertilization .....	26
Harvesting and Handling .....	28
Pesticides .....	29
Organic Strawberry Production .....	32
<b>Managing Pests in Strawberry Nurseries</b> .....	35
Virus-Free Plants .....	35
Strawberry Certification Program .....	36
Nursery Generations .....	36
First Generation .....	36
Foundation Block .....	39
Increase Block .....	39
Production Block .....	40
Hot Water Treatments .....	40
Planting .....	40
Irrigation .....	40
Fertilization .....	41
Harvest and Handling .....	41
Using Pesticides in Nurseries .....	42

<b>Insects and Other Invertebrates</b> .....	43
GENERAL PREDATORS .....	44
MONITORING .....	48
MAJOR PESTS .....	49
Twospotted Spider Mite .....	49
Lygus Bug .....	56
Other Plant Bugs .....	61
Whiteflies .....	62
Cyclamen Mite .....	65
Aphids .....	66
Cutworms .....	68
Armyworms .....	68
Corn Earworm .....	70
OTHER CATERPILLAR PESTS .....	71
Leaf-Rolling Caterpillars .....	71
Garden Tortrix .....	72
Strawberry Leafroller .....	72
Omnivorous Leaf-tier .....	73
Light Brown Apple Moth .....	73
Cabbage Looper .....	74
Saltmarsh Caterpillar .....	74
OTHER INVERTEBRATE PESTS .....	75
Western Flower Thrips .....	75
Fruit Flies .....	75
Root Weevils .....	76
Hoplia .....	77
Field Crickets .....	78
Strawberry Rootworm .....	79
European Earwig .....	79
Garden Symphylan .....	80
Slugs .....	81
Ground Mealybug .....	81
<b>Diseases</b> .....	83
Field Monitoring and Diagnosis .....	84
Prevention and Management .....	84
FRUIT DISEASES .....	86
Gray Mold (Botrytis Rot) .....	86
Rhizopus Rot (Leak) .....	88
Mucor Fruit Rot .....	88
Other Fruit Diseases .....	89
FOLIAR DISEASES .....	90
Common Leaf Spot .....	90
Powdery Mildew .....	91
Virus and Phytoplasma Diseases .....	92
Angular Leaf Spot .....	96
Phomopsis Leaf Blight .....	97
Leaf Blotch .....	97
Hainesia Leaf Spot and Fruit Rot .....	98

ROOT AND CROWN DISEASES .....	98
Anthracnose .....	98
Phytophthora Crown Rot .....	100
Red Stele Root Rot .....	101
Verticillium Wilt .....	102
Black Root Rot .....	103
Charcoal Rot .....	103
ABIOTIC DISORDERS .....	103
Nutrient Deficiencies .....	103
Low-Temperature Injury .....	106
Salt Toxicity .....	107
Pesticide Injury .....	107
Rain Injury .....	107
Fruit Coloration Problems .....	108
Albino Fruit .....	108
Green Tip, White Shoulder .....	108
Fruit Bronzing .....	109
Sunburn .....	110
Fruit Formation Problems .....	110
<b>Nematodes</b> .....	111
Foliar Nematode .....	111
Root Knot Nematodes .....	112
Nematode Management .....	113
<b>Weeds</b> .....	115
Management Methods .....	115
Field Selection and Sanitation .....	116
Cultivation and Hand Weeding .....	116
Crop Rotation .....	116
Soil Solarization .....	116
Polyethylene Mulch .....	116
Fumigants .....	117
Herbicides .....	117
Monitoring and Identification of Weed Species .....	118
PERENNIAL WEEDS .....	119
ANNUAL BROADLEAF WEEDS .....	123
ANNUAL GRASSES .....	130
<b>Vertebrates</b> .....	133
Birds .....	133
California Ground Squirrel .....	137
Voles .....	138
Pocket Gophers .....	139
Moles .....	140
Mule Deer .....	142
<b>Managing Strawberry Pests in the Home Garden</b> .....	143
<b>Suggested Reading</b> .....	155
<b>Glossary</b> .....	161
