## IPM in Practice, Second Edition

### IPM in Practice

Principles and Methods of Integrated  
Pest Management

Second Edition

Mary Louise Flint  
UC Statewide Integrated Pest Management Program

University of California  
Agriculture and Natural Resources  
Publication 3418

*The most comprehensive, practical field guide available for setting up an IPM program. Includes monitoring techniques and management methods for all types of pests in agricultural, landscape and urban settings.*

#### What's new in the second edition?

- Monitoring and management technology updates
- New methods for protecting the environment
- New information on invasive pests, pesticide resistance, and more.
- Over 160 color photos and 100 illustrations

*This manual is the official study guide for the California Department of Pesticide Regulation's Pest Control Adviser exam.*

2012 • 292 pages  
Publication #3418 • \$35.00  
ISBN 978-1-60107-785-1
